EXPERIENCE

Engineering Intern, Square, Inc.

San Francisco, CA — August 2014 - Present

Developing tools and resources to increase the productivity and ease of work for internal operations. Worked as part of a good-sized engineering team and became familiar with processes and best practices for working collaboratively and efficiently. Youngest member of the 1000+ employee company.

Accomplishments include:

- improvements to Content Management System
- automated image upload tool
- optimizations for administrative areas of application

Engineering Intern, Caviar

San Francisco, CA — April 2014 - August 2014

Contributed to web application by developing both internal and consumer-facing tools and interfaces as the youngest member of the company

Accomplishments include:

- merchant preview page
- menu previews
- company blog
- automated payout reports (saved company \$1000/month)
- mobile responsiveness
