Experience

Engineering Intern, Square, Inc.

August 2014 -

Developing tools and resources to increase the productivity and ease of work for internal operations. Worked as part of a good-sized engineering team and became familiar with processes and best practices for working collaboratively and efficiently. Youngest member of the 1000+ employee company.

Contributions:

- improvements to Content Management System
- automated image upload tool
- optimizations for administrative areas of application

Engineering Intern, Caviar, Inc.

April 2014 - August 2014

Contributed to web application by developing both internal and consumer-facing tools and interfaces as the youngest member of the company

Contributions:

- merchant preview page
- menu previews
- company blog
- automated payout reports (saved \$1000/month)
